TRY YOUR APP

Hi Elysia

Your latest notes are in: you can now build your own classes and packages, your real prices and timetable are loaded, and everything looks cleaner. This link is the **practice version**: made-up clients, no real payments, no emails.

reform-pilates-seven.vercel.app

On your phone: open the link, then in the browser menu tap **Add to Home Screen** to use it like an app. It updates by itself.

WHAT'S NEW your last two sets of notes

Your packages, your tabs

"Secure your package" now opens tabs: **Mat**, **Reformer**, and, set up but **hidden** until you're ready, **Pre and Post Natal** and **Private**, with your prices, descriptions and the note about arranging private times. Mat and Reformer have your 4 / 8 / 12 classes for 1 or 2 months.

Build it yourself

Settings → **Packages & single classes** → **+ Add**: a package or a single class (trial or drop-in, with your own name), for any class type, or **+ New class type** right there. Edit, hide or **delete** class types and packages. **Private** class types never show on the schedule: you book clients in yourself.

Your timetable

Your weekly timetable (32 classes, Monday to Saturday) is loaded in your **real app** and repeats by itself. The practice version keeps its practice classes. Choose how far ahead clients can book in Settings → Booking rules (4 weeks ≈ 1 month, 13 = 3 months).

Codes and emails to you

Codes and rewards can be ticked for **trial, drop-in, package or event**; clients see "Have a code?" on classes too. You get an **email** when a client books (it says when a class was empty), signs up, cancels, requests a package or changes their details.

Cleaner look

Clean, simple lettering everywhere; Home shows only your words. Each event gets a **title font** you choose (calligraphy, handwritten, minimal, simple, elegant, bold). Studio Rules and Payments are separate plain pages, the **Terms are editable**, and "spots left" is lavender.

Your questions

Adding someone yourself takes a spot like anyone else: a full class stays full (raise the spots first to fit an extra person). The fitness tick is gone from Create account; it's in your Studio Rules.

1 · TRY IT AS A CLIENT about 5 minutes

1. Tap **Secure your package** and **Create account** (no fitness tick any more). In the practice version the email code fills itself in.
2. On Packages, see the tabs **Mat** and **Reformer** with your prices. Pre and Post Natal and Private aren't there: they're hidden.
3. Look at the **Schedule**: clean times and names, "spots left" in lavender.
4. Open a class: if you made a code for trials in step 2, tap **Have a code?** and watch the trial price change.
5. Open **Events** and an event: its title uses the font you chose.
6. At the bottom of any page: **Studio Rules**, **Payments & Cancellation** and **Terms** are now separate, plain pages.

To see a regular client with a package, sign in as **elena@example.com** with the password **reform-demo**.

2 · RUN YOUR STUDIO about 8 minutes

1. Sign in with **elysia.stephani@gmail.com** and the **studio password** we sent you separately.
2. **See the hidden tabs:** tap **Client view ↗** → Packages. Pre and Post Natal and Private are there for you only, marked "hidden".
3. **Show a tab:** Settings → **Packages page** → Private → tick **Show this tab to clients** → Save. Untick it again when you're done trying.
4. **Build something:** Settings → Packages & single classes → **+ Add a package or single class** → Single class → "For": **+ New class type...**. Then delete it again (class type and single class each have **Delete**).
5. **Private:** Settings → Class types → a Private type shows the **Private** tick. To book a private client: Classes → New class → the private type → Add a client → "one of their package classes".
6. **A code for trials:** Clients → Discount codes, tick **Trial**, then try it as a client.
7. **Studio emails:** Settings → Studio emails: choose where they go and which ones you want.
8. **An event with your font:** Classes → New class → Event → Event options → **Title font** (there's a preview).
9. **Your Terms:** Settings → Your texts → Terms & Conditions. Start a line with ## for a heading and - for a point.

Two full guides come with this: **Running your studio** (everything, step by step) and **Your Re·Form app** for your clients.

3 · WHAT'S LEFT TO DO

Your real app is live at **book.reformpilatescy.com** with emails working. Your packages and weekly timetable are already in it.

You, in the real app

- [ ] Set your password: tap **Forgot password?**; a code arrives by email
- [ ] Settings → Your studio: address, phone, email for clients
- [ ] Settings → How clients pay you: Revolut link, IBAN, account name
- [ ] Settings → Studio emails: the address for your booking emails
- [ ] Check your timetable (Classes) and prices (Settings)

You, when you're ready

- [ ] Upload studio photos and your logo (Settings → Photos)
- [ ] Write The Studio text and check the Terms (Your texts)
- [ ] Add Pre & Post Natal classes to the timetable, then show its tab
- [ ] Show the Private tab

Quick questions (we used the answer in brackets for now)

- [ ] Mat classes: how many spots? (8, and 8 for Pre & Post Natal Mat)
- [ ] Pre & Post Natal classes: how long, and on which days? (50 minutes, you add them)

Us, before launch

- [ ] Have a lawyer read the Terms, Privacy and health consent
- [ ] Soft launch: 3–5 regular clients for a week
- [ ] Upgrade the hosting plan (about $20/month) before the link goes in your Instagram bio

Later

- [ ] Card payments in the app, when you're registered
- [ ] Text messages for the waitlist
- [ ] Gift vouchers, referrals, Greek / Russian

Your opinion

- [ ] What felt confusing or too much?
- [ ] Anything that doesn't sound like you?
- [ ] Anything missing before you'd use it with real clients?

Thank you! 💜 · Re·Form Pilates Studio
