TRY YOUR APP

Hi Elysia

Your booking app is almost ready for real clients. This link is the **practice version**: made-up clients, no real payments, no emails. Try anything; you can't break it.

reform-pilates-seven.vercel.app

On your phone: open the link, then in the browser menu tap **Add to Home Screen** to use it like an app. It updates by itself.

WHAT'S NEW

Your notes, done

Your logo, **Secure your package** with your prices, Cash or Revolut, Trial and Drop-in, booking **the same days every week**, the three colours (pink booked, purple spots left, light pink full), My classes with progress like 6/8, Studio · Events · Rules circles.

Safer sign-up

New clients give their **date of birth** and answer **8 quick health questions** (the standard PAR-Q, plus pregnancy). If they answer "yes" to any, they're told to check with their doctor and tell you.

Waitlist books itself

If a spot opens **more than 6 hours** before class, the first person waiting is booked automatically with a class from their package, and emailed. Closer to class, they get the spot held for 2 hours instead.

Clearer emails

Every booking email says **until when they can cancel for free** (6h before). Clients can turn off the day-before reminder in their Account.

1 · TRY IT AS A CLIENT about 4 minutes

1. Tap **Secure your package**, choose Reformer or Mat and how many times a week.
2. Sign in with **any email**. In the practice version the code fills itself in: just tap **Continue**.
3. Fill in your details once: name, phone, **date of birth** and the **health questions**. Try answering "yes" to one to see what clients see.
4. Choose **Cash** or **Revolut**, tick the box and **Request package**.

5. Mark it paid in the studio part (step 2), then come back and book from the **Schedule**, or tap **Every week** on the home page.
6. No package? Open any class and try **Book your trial**.
7. Cancel a class from **My classes** and see it go back into your package.

To see a regular client, sign in as **elena@example.com**: a current package, a finished one (5/8) and receipts.

2 · RUN YOUR STUDIO about 4 minutes

1. On the same link, sign in with **elysia.stephani@gmail.com** and the **studio password** we sent you separately.
2. **Today:** under *Awaiting payment* you see how each client said they'll pay. Tap how they paid (or **Remove** if they're not coming) and their classes appear. Next to names you'll see *Birthday*, *First class*, *Trial*, *Drop-in*, *Under 18*, *No photos*, and *PAR-Q: yes* (tap *Health info* to read it; only you can see it). Tap the circle to check someone in.
3. **Classes:** add someone from your DMs, remove someone, or cancel a class (everyone is told and gets their class back). Set next month in **Monthly timetable**; holidays in **Holidays & closures**.
4. **Clients:** their details, emergency contact, notes; give a class back; mark a student (10% off).
5. **Settings** starts with **Before your first client**: a short list of what's still missing. Below it: **Photos**, **Package prices**, **Your texts**, **Studio team**.
6. **Settings → Messages** shows every email the app sends, and **Automatic reminders: last ran a few minutes ago** (they go out on their own every 5 minutes).
7. **Settings → Reset demo data** puts the practice version back to the start.

3 · YOUR REAL APP

Your real app is ready and separate from this practice version, so made-up clients never mix with real ones. It opens for clients once three things are done:

- **Emails switched on**: we set up your studio email address so clients receive their sign-in codes and reminders.
- **Your details filled in**: you type them into Settings yourself (it shows exactly what's missing).
- **Your timetable** for the coming weeks.

Then we invite 3–5 regular clients for a week before putting the link in your Instagram bio.

4 · WHAT WE NEED FROM YOU

Tick what you've sent. Voice notes and screenshots are perfect.
